

SENDGRID ACCOUNT

The screenshot shows the SendGrid account setup page for SMTP integration. The left sidebar contains navigation links: Account Details, Setup Guide (highlighted), Help & Support, Sign Out of Account, Templates, Stats, Activity, Suppressions, and Settings. The main content area is titled 'Integrate using our Web API or SMTP Relay' and shows a progress bar with three steps: Overview, Integrate (current), and Verify. The 'Integrate' step is divided into two sub-steps: 1. Create an API key and 2. Configure your application. Step 1 shows a success message and a generated API key. Step 2 shows a form with the following fields: Server (smtp.sendgrid.net), Ports (25, 587 for unencrypted/TLS connections; 465 for SSL connections), Username (apikey), and Password (a long alphanumeric string). At the bottom right, there are two buttons: 'I've updated my settings.' and 'Next: Verify integration.'

Setup Guide / Integrate / SMTP

Integrate using our Web API or SMTP Relay

How to send email using the SMTP Relay

- Create an API key**
This allows your application to authenticate to our API and send mail. You can enable or disable additional permissions on the [API keys page](#).
"gmass" was successfully created and added to the next step.
SG.kRxet9TK751n6uqeGVHzZyw.OOw-wy0W9-vVgR31FAH1j1APRhr51aasZWfNDnEhJ1k
- Configure your application**
Configure your application with the settings below.

Server	smtp.sendgrid.net
Ports	25, 587 (for unencrypted/TLS connections) 465 (for SSL connections)
Username	apikey
Password	SG.kRxet9TK751n6uqeGVHzZyw.OOw-wy0W9-vVgR31FAH1j1APRhr51aasZWfNDnEhJ1k

☐ I've updated my settings. [Next: Verify integration.](#)

The screenshot shows a terminal window with the title 'set'. The content displays the email address 'smtp@gmass.co', the domain 'set', the SMTP Server 'smtp.sendgrid.net', the Port '25', the Username 'apikey', and the Password 'SG.iJu-G7ATPMsmHyY3amag.XSYIOS-oZWdUsDtZKfZOP-5jltABWPjMtDTZgvq7A0'.

```
set
smtp@gmass.co
set
SMTP Server: smtp.sendgrid.net
Port: 25
Username: apikey
Password: SG.iJu-G7ATPMsmHyY3amag.XSYIOS-oZWdUsDtZKfZOP-5jltABWPjMtDTZgvq7A0
```
